ORR Contribution (Special Intelligence and ELINT Section) to Semi-Annual Report to the Hull Committee

A. Special Intelligence

1. In terms of a relatively large volume of reports and messages, COMINT supplied important contributions primarily in the fields of:

25X1D1a
NSA

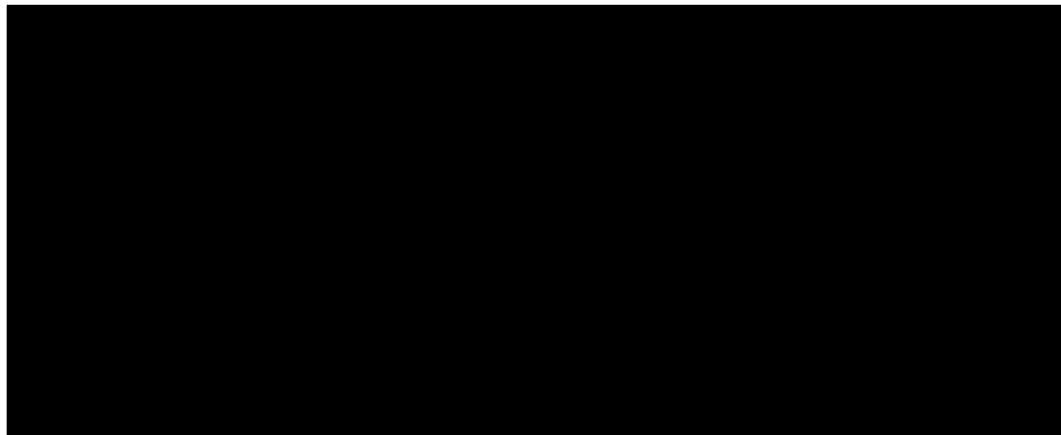

25X3
NSA

2. COMINT bearing directly on other critical [redacted] intelligence objectives has supplied only fragmentary data which, in most instances, has been inferential rather than firm intelligence. Within this framework, when used with other source materials, important contributions by COMINT should be noted in the following fields:

25X3
NSA

25X1D1a
NSA

NSA 25X3

25X3
NSA

3. Another contribution is the use of COMINT data as leads and guides to the direction and exploitation of other intelligence sources against highest priority targets

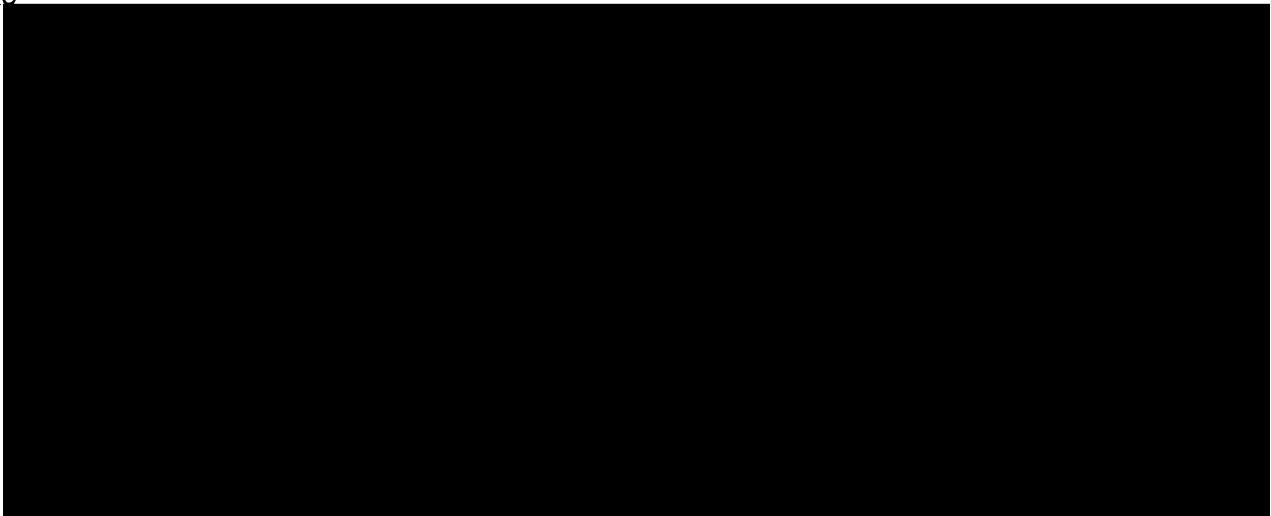

25X3
NSA

4. Since the utilization of COMINT by this office depends very largely on what can be researched and processed by NSA and other Security Agencies, an important problem is, in the opinion of this Office, the critical and immediate need for improved and standardized machine processing of intelligence or information data among the COMINT processors.
